Performance Floor Coating Systems, Inc. Warranty

Standard System-1-year warranty Standard Epoxy-Coat system
Rejection System- 3-year warranty Flake to Rejection System
Resurfacer System- 3-year warranty 1/4" Resurfacing System

Performance Floor Coating Systems, Inc. (PFCSI) shall warranty its work against flanking and peeling for a period specified above from the invoice date providing the job has been paid in full to terms.

PFCSI cannot warranty an existing coating adhesion to the concrete or any work that we have not performed.

This warranty applies to flanking or chipping coatings caused as a direct result of product failure. The sole and exclusive maximum liability of PFCSI under this warranty will be at the option of PFCSI to patch failing area/areas or re-coat all coated areas PFCSI deems advisable.

The express warranties set forth in this contract are in lieu of all other warranties, expressed or implied, including without limitation, any warranties of merchantability or fitness for a particular purpose.

Customer agrees that his/her exclusive remedies, and the entire liability of PFCSI with respect to the specified floor coatings, are set forth in this agreement. PFCSI will not be liable to customer for any damages, including any lost profits or other incidental or consequential damages arising out of its use of the floor coating or the breach of any warranty.

Limitations and conditions not warranted.

- Hydrostatic pressure; Hydrostatic pressure is caused from moisture being present underneath the concrete slab. Hydrostatic pressure can cause blisters, bubbles and other effects in a resinous coating.
- Sub-surface contaminants; Oil or other contaminants that can come up from within the concrete slab could cause coating failure.
- Deficient Concrete; concrete that breaks apart and exhibits reduced integrity.
- Non-skid; Non-skid will wear out over time and will need to be re-applied. Performance accepts no responsibility as to the time or amount of wearing. The customer is responsible to maintain its own safe limits for slip resistance throughout the life of the floor coating application. TF recommends a coefficient friction of .05 or greater.

Toledo Floor, Inc. Warranty

Standard System-1-year warranty Standard Epoxy-Coat system

Rejection System- 2-year warranty Flake to Rejection System

Resurfacer System- 3-year warranty 1/4" Resurfacing System

Toledo Floor, Inc. (TF) shall warranty its work against flanking and peeling for a period specified above from the invoice date providing the job has been paid in full to terms.

TF cannot warranty an existing coating adhesion to the concrete or any work that we have not performed.

This warranty applies to flanking or chipping coatings caused as a direct result of product failure. The sole and exclusive maximum liability of TF under this warranty will be at the option of TF to patch failing area/areas or re-coat all coated areas TF deems advisable.

The express warranties set forth in this contract are in lieu of all other warranties, expressed or implied, including without limitation, any warranties of merchantability or fitness for a particular purpose.

Customer agrees that his/her exclusive remedies, and the entire liability of TF with respect to the specified floor coatings, are set forth in this agreement. TF will not be liable to customer for any damages, including any lost profits or other incidental or consequential damages arising out of its use of the floor coating or the breach of any warranty.

Limitations and conditions not warranted.

- Hydrostatic pressure; Hydrostatic pressure is caused from moisture being present underneath the concrete slab. Hydrostatic pressure can cause blisters, bubbles and other effects in a resinous coating.
- Sub-surface contaminants; Oil or other contaminants that can come up from within the concrete slab could cause coating failure.
- Deficient Concrete; concrete that breaks apart and exhibits reduced integrity.
